Sports Injuries and Emergencies

We are so proud to provide the opportunity for coaches, trainers, nurses, paramedics, physical therapists, and other individuals who provide initial interventions for the pre-college athlete to attend the 1st Annual Dell Children's Sports Injuries & Emergencies Conference. This extraordinary faculty includes key members from the Central Texas community that will present topics which reflect the importance of a team approach in the care of the ill or injured athlete. We are extremely proud to provide this opportunity to the community to not only learn more on this critical topic but also allow you a chance to view our beautiful new hospital.

Parking

The conference will be held at the Dell Children's Medical Center Signe Auditorium. Free parking is available. Please enter through the Pat Hayes Education and Conference Center. Please view our website for registration forms on-line and detailed parking maps and information. Unfortunately, we will not have on-line registration available but will have this brochure available electronically.
