- David Grundy, M.D. – Austin

KEEPING CENTRAL TEXAS CHILDREN WELL

First Annual Pediatric Conference

UTMB Appointment

Preceptors who teach for the 3rd year medical clerkships will receive a UTMB Clinical Assistant Professor Appointment. This appointment is reviewed annually and renewed as you continue to volunteer as a UTMB preceptor.

CME Credits

Category II CME

Every one hour of teaching time is equivalent to one hour of Category II CME. UTMB will send you a letter in August which will list the number of students you taught throughout the prior year and the number of hours you can self declare.

CME

- Invitation to UTMB Annual Pediatric Review and Update Course
- Approximately first 20 preceptors to accept invitation will have registration paid for by Office of Regional Medical Education

Moody Medical Library Access

This online resource is available for preceptors who accept UTMB students throughout the current academic year. The Moody Medical Library offers physicians resources such as the Cochrane Library Online and a variety of other resources

Thank you!

UTMB extends its deepest appreciation to these role models who, in providing quality and compassionate care to their patients, have made a lasting impact on the lives of their students.
