

My Seton Health

Your online medical record

My Seton Health allows you to stay connected and in charge of your health — anytime, anywhere.

You'll be able to:

- Access a summary of treatment during your hospital stay
- Access your active medication list, allergies, immunizations and procedures
- View future appointments
- View your hospital discharge instructions
- Access lab and vital sign results
- View discharge summary your doctor writes/signs after your visit
- Manage a loved one's records and/or child's records
- Send secure messages to your care team (currently only available for Texas Center for Pediatric and Congenital Heart Disease)

How to enroll

Your healthcare information is confidential and protected by state and federal laws.

In-person: You can enroll in person by speaking with the hospital's registration staff or contacting the Health Information Management department at 512-324-1004. You will be asked to verify your identity. You will receive an email invitation to join the portal. Follow the instructions in the email to complete the registration process.

With My Seton Health, you can gain access to the records of your younger children; and, with permission, the records of other adults for whom you are a caregiver. Speak with your hospital registration staff for details.

(Due to Texas state law, the records for minors between the ages of 12 and 17 can be accessed only by a parent/guardian with the minor's consent.)

Health management apps

My Seton Health is also accessible using the HealthLife app, which can be downloaded from the App Store for use on your iPhone or Android.

We now offer the ability for you to securely connect some of the health management apps you may use to access your health record.

Questions?

Ask your registration team, or contact the Health Information Management department at **512-324-1004**.
