

Let's Vaccinate

Help increase your vaccination rates and close gaps-in-care with these tools and strategies

Healthcare providers are seen as trusted sources of medical information and are in a unique position to improve lives and community health. Research shows that a strong vaccination recommendation from a provider is the greatest motivator for people of all ages to vaccinate themselves and their family members against serious infectious diseases.

Let's Vaccinate offers providers tools and strategies to aid in vaccinating people of all ages. This website will help your practice:

- Address disparities for vaccine-preventable diseases.
- Identify and fill workflow gaps, including assessing vaccination status, enhancing vaccine, communications, providing vaccine education, and improving vaccine management and administration in your office.
- Access up-to-date guidance from the CDC for COVID-19 vaccines and other recommended vaccines during the pandemic.
- Connect with your state immunization program, local immunization coalition, or other vaccine advocates in your community to collaborate.
-

Keeping all patients healthy and safe requires the support and collaboration of the entire healthcare industry. So, together, let's vaccinate.

Let's Vaccinate is a collaboration of Anthem, Inc., Pfizer Inc., and Vaccinate Your Family.
